

PTFE – Spray: HIT-FLON® 2000 - Spray

Teflon-Spray: 250ml

Universal lubricant and release agent for household, workshops and industry - non greasy lubricant, reduces friction and is insoluble, thermally stable, anti-adhesive, chemically resistant and non-flammable, patented.

Fields of application:

As lubricants and release agent for leather, plastics, gaskets, gears, bearings, bushings, cords, cables, yarn, metals, machine parts, screws, couplings, clutches, locks, machines, instruments, devices, tapes, locks, cameras...

Characteristics:

Waxy fluoroplastic telomere
Dispersion / telomere Solids
Density 25 ° C g / cc = 2.16
Softening Point (ASTM E-28-58T) = 265 ° C
Hardness (ASTM D 1321-57T)
Penetrometer needle penetration = 25 ° C
5 sec. 400g Weight = 0.5 mm
Molecular weight = 3.700
